# Course Modules - Stage 1

- **Contract Law**

This unit aims to equip learners with knowledge and understanding of the key principles of contract law, such as: validity of contract; terms of contract; vitiating elements that affect the validity of the contract; the ways in which the contract can come to an end and remedies for breach of contract available. Learners will gain an appreciation to the significance of contract law in commercial, consumer and social contexts.

- **Criminal Law**

This unit will equip learners with knowledge of the general foundations of criminal liability and with understanding of the major types of offences and their constituent elements. The unit aims to enable learners to determine whether specific offences have been committed and whether any defences may be applicable. Learner will explore the aims and nature of criminal law and its function as a protector of the State.

- **Legal Methods**

This unit will equip learners with the knowledge and understanding of the identification, interpretation and analysis of legal sources and materials. The acquired skills will enable the learner to apply the law to the facts of problems in any given legal area, to communicate clearly and persuasively and to reach satisfactory solutions to legal disputes. Learners will explore fundamental principles and components of the English Legal System, the judiciary and the civil and criminal process and will gain an appreciation of how the main principles underpin all substantive and procedural areas of law.

- **Public Law**

This unit will equip learners with knowledge of the general foundations of constitutional and administrative law, with a particular focus on the main elements of the United Kingdom's constitution. The unit will enable learners to identify the significance of the separation of power and the sovereignty of Parliament, as well as the importance of human rights norms. Learners will also be introduced to the basic principles of administrative law and judicial review process.

- **Equity and Trusts**

This unit will equip learners with in-depth knowledge and understanding of the principles governing the law of Equity and Trusts. The unit aims to enable learners to understand and apply equitable rules to fact-based scenarios, to identify and resolve issues that potential clients may face in the context of different types of trusts and equitable remedies. Learners will explore how equity interrelates with other legal topics and how equitable principles apply in domestic and commercial context.

- **EU Law**

This unit will equip learners with knowledge of the European Union legal system and the main substantive aspects of the European Union laws. The unit aims to enable learners to understand the history that led to the creation of the union, the political institutions of the EU, the role and the jurisdiction of the Court of Justice. Learners will be introduced to the fundamental rights given to individuals guaranteed by the Union and to the relationship between European and national laws.

- **Land Law**

This unit will equip learners with an in-depth knowledge and understanding of the principles governing land law. The unit aims to enable learners to appreciate the scope of estates and interests in land and their method of protection. Learners will explore the meaning of real property, the types of legal and equitable interests in land, the principles of registration and its purpose and the rules behind the operation of selected proprietary rights.

- **Law of Tort**

This unit will equip learners with in-depth knowledge and understanding of the principles governing the law of tort. The unit aims to enable learners to understand the foundations of tortious liability, remedies and defences. It further aims to enable learners to apply rules governing a variety of specific torts to fact-based scenarios and to identify and resolve issues that claimants and defendants may face. Learners will explore how tort interrelates with criminal law and how social and political decisions impact on the understanding of negligence.

# Course Modules - Stage 2

- Alternative Dispute Resolution - Analyze alternative dispute resolution methods, comparing their strengths, limitations, and practical/ethical implications compared to traditional approaches.
- Graduate Professional Skill and Employability - Build on professional and employability skills from previous years, exploring advanced skills and work-related learning for career transition.
- Law for Entrepreneurs - Develop practical legal knowledge and critically analytical skills relevant to ethical enterprise and entrepreneurship.
- International Humanitarian and Criminal Law - This module covers international humanitarian law, including armed conflict, international criminal law, and UK human trafficking legislation.
- Company Law - Critically examine and apply legal principles governing business corporations' formation, operation, dissolution, and actors' conduct.
- Project - Develop research skills by enabling the self-directed planning, research, and production of an independently produced piece of legal writing which addresses critically a legally topic.

# Entry Requirements

- Approved Centres are responsible for reviewing and making decisions as to the applicant's ability to complete the learning programme successfully and meet the demands of the qualification. The initial assessment by the centre, will need to consider the support that is readily available or can be made available to meet individual learner needs as appropriate.
- The qualification has been designed to be accessible without artificial barriers that restrict access, for this qualification applicants must be aged 18 or over.

# Recognition

Our courses are reviewed and recognized by the UK Quality Assurance Agency (QAA), the same organisation that ensures quality for all UK Universities. For this reason, students graduate with an internationally-recognised qualification is safeguarded by the standards set by the QAA.
